How to View Secondary Student Results in SEQT A Engage

Your child will receive feedback from teachers on tasks that they complete throughout the year. These can be viewed using the SEQT A Engage portal for parents. Parents of students in year 7-10 should expect feedback in every subject area. Below is a guide for how to view student progress.

2. Earlier in the year, an email was sent to your nominated email address, asking you to access a link to create your user name and password. If you did not receive this email, or your link has expired, please send an enquiry to hannah.legge@mountcarmel.tas.edu.au

   To proceed, enter your personally created user name and password into the log in box.

3. The welcome page will appear, and direct you to navigate from the menu on the left.
4. Select the ‘Assessments’ tab, which is found in the left hand menu below ‘Welcome.’

5. Select the child you wish to view progress for, if you have more than one child enrolled at Mount Carmel College.

6. Then select the subject you wish to view further information for.

7. A screen of results that your child has achieved thus far will appear:

![Assessment Results Screen]

8. To access further information, such as comments and images, click on a specific task:

![Task Details Screen]

9. Repeat this process for other children enrolled at the College, subject areas and tasks.
